

AFFORDABLE HOUSING

WHAT IT IS AND WHO IS IMPACTED

What is Affordable Housing?

Affordable housing is housing that costs no more than 30 percent of a household's income relative to the area's median family income (AMFI). Area median family income (AMFI) is the midpoint of a region's income distribution.

46% of Texas Renters are Cost-Burdened

Source: Joint Center for Housing Studies of Harvard University

Being cost-burdened means spending more than 30 percent of a household's income on housing costs and utilities. Housing and utility expenses exceeding this amount restrict a family's ability to accommodate other costs of living such as health care, child care, transportation, and education.
